Master of Arts in Sociology

Program Outcomes (POs):

The Master of Arts in Sociology offered by the Department/University aims at training students to critically analyze the social environment in which they live and become self aware and responsible citizens.

The MA Sociology programme has a strong theoretical and behaviour core. The programme will appeal to those who want to better understand complex shifts and transformation within our societies. This will be paralleled by analysis of empirical sociological research, the design of research programmes and methods of presenting and interpreting sociological data. The programme seeks to develop in student the sociological knowledge and skills that will help them to think critically and imaginatively about society

The programme will open career option in multi and interdisciplinary fields viz., administration, management, planning and policy making, NGO, development projects, rural development, counseling, social and extension work besides career in teaching and research and many more.

Program Specific Outcomes (PSOs)

The program seeks to introduce students to the major concepts of sociology and perspectives of sociology in such a way that even those who come from other disciplines and without any previous exposure to sociology could develop an interest in the subject .

The program would enable the students to understand, critically analyze and interpret all aspects of human social behaviour, including the behaviour of individuals as well as the social dynamics of small groups, large organizations, communities, institutions, and entire societies. It will help to understand how to collect, analyze and interpret empirical evidence in Sociological research. Students will gain familiarity with and develop an understanding of core substantive areas of sociological inquiry.

At the end of the two year M.A. course in which students able to do critical thinking, and the ability to formulate cogent arguments which will give them an

edge in any profession that they wish to pursue. The course will provide scope for employment to students in different sectors.

The course aims at providing a systematic study of sociology. The students would be able to recognize sociology as the scientific study of human society and social behaviour by studying social facts, principles, behaviours, action, opinions, phenomena, social demography, structure, processes, theoretical orientations, sociology of rural and urban life, quantitative and qualitative research methods, etc..

Students will get an opportunity to gain first hand knowledge of society to carry out research and understand society in depth. Program will enhance the logical and analytical skill to understand the social issues and problems. To contribute subject knowledge to nurture creativity , research and development. To provide basic and advanced theoretical as well as methodological knowledge of sociology for application.

Course outcomes:

1-This course is offered to provide the students with the necessary foundations in the major thinkers and pioneers of sociological thinking such komte Marx, Weber, Durkheim parsons and Pareto. A sound understanding of these thinkers would help student to understand the contemporary and "current social issues and problems. The students will be able to engage with conceptual frameworks in sociology with ease and apply them to their understanding of social issues

2-This course plan aims to provide exposure to the fundamentals of various research techniques and methods (both quantitative and qualitative). It tries to build upon the basic assumptions in adopting different methodologies for different kinds of research themes.

3-The course is designed to provide an overview of the rural social reality with emphasis on the changing nature of the rural society, to understand the factors responsible for the changing nature of the rural society and the approach of the Government to deal with rural issues and crisis.
